

RAOB Newsletter - May 2011

RAOB Friends & Users:

You have received this message because you are a RAOB owner or friend. If you received this message in error or no longer desire to receive these messages, just respond to this message by indicating REMOVE in the Subject or Body of this message.

For RAOB 6.1 users only. The latest version contains serial numbers beginning with 6168, so if the first 4 digits of your RAOB serial number are less, you should download the latest program update using RAOB's Help menu (RAOB Program Updates) for the download link. This update contains improvements to the CSV decoder and the data Exporter.

The RAOB 6.2 Beta program. The developing RAOB 6.2 program has an enhanced Severe Weather Display screen, which now includes a Hail/No-Hail nomogram as seen here...

<http://raob.com/assets/images/RAOBSevereLg.jpg> If you have made a RAOB 6.1 purchase, you are eligible to use the 6.2 Beta program now since you will be eligible for this free upgrade when RAOB 6.2 is released later this year. If you want to use the RAOB 6.2 Beta program now, or are not sure of your eligibility, just contact wxx@raob.com and provide your RAOB serial number. Use the below link to view the growing list of RAOB 6.2 Beta enhancements... <http://www.raob.com/raob62beta.htm>

RAOB customer highlight. This is a new section for the RAOB newsletter, where a RAOB customer web link is highlighted. The following link provides a sample of how the Radiometrics Corporation uses the new RAOB 6.2 Beta's Fire-Weather and Air-Quality screen to display their microwave radiometer soundings...
