

RAOB Newsletter - June 2011

RAOB Friends & Users:

You have received this message because you are a RAOB owner or friend. If you received this message in error or no longer desire to receive these messages, just respond to this message by indicating REMOVE in the Subject or Body of this message.

For RAOB 6.1 users only. The latest version contains serial numbers beginning with 6169, so if the first 4 digits of your RAOB serial number are less, you should download the latest program update using RAOB's Help menu (RAOB Program Updates) for the download link. This update contains improvements to the CSV decoder for datafiles involving multiple soundings.

The RAOB 6.2 Beta program. The developing RAOB 6.2 program's Soundingram module has been expanded to include scanning capability. Similar to the Sounding diagram's scanner function, this scanner can also process and display files containing up to 2,000 soundings. The Soundingram's scanner can create comparative plots of 25 different parameters: including Density, Shear, Virtual Temperature, and others. Here is an example diagram showing comparative Wind Speed profiles ... http://www.raob.com/assets/images/RAOB_ScannerG_Lg.jpg If you have made a RAOB 6.1 purchase, you are eligible to use the 6.2 Beta program now since you will be eligible for this free upgrade when RAOB 6.2 is released later this year. If you want to use the RAOB 6.2 Beta program now, or are not sure of your eligibility, just contact wxx@raob.com and provide your RAOB serial number. Use the below link to view the growing list of RAOB 6.2 Beta enhancements... <http://www.raob.com/raob62beta.htm>

Important ... If you have program comments or questions, please send them using a separate message to wxx@raob.com
