

RAOB Friends & Users:

December 2011

You have received this message because you are a RAOB owner or friend. If you received this message in error or no longer desire to receive these messages, just respond to this message by indicating REMOVE in the Subject or Body of this message.

For RAOB 6.2 users only. The latest version contains serial numbers beginning with 6265, so if the first 4 digits of your RAOB serial number are less, you should download the latest program update using RAOB's Help menu (RAOB Program Updates) for the download link, or just use this direct link: <http://www.raob.com/filelinks/raob62update.htm> This update contains fixes and improvements to the Basic program and the following optional modules: Analytic, Hodograph/Interactive, and Cross-Section modules.

RAOB User Hint. You can right-click any screen or diagram location for more information or configuration options. This is especially important for all toolbar buttons. Try it.

RAOB Customer Corner. A multi-faceted website from Alberta Canada, called West Lethbridge Weather, displays continuously updated local weather information. This website also displays sounding data from the Edmonton Alberta (CWSE) rawinsonde site using RAOB's unique Winter Weather Skew-T diagram.

RAOB Customer Quote of the Month. 'My grad student and I realize that RAOB has now become a gold mine for his thesis research.'

RAOB 6.3 Beta program. Development of the RAOB 6.3 Beta program has begun. There are already over a dozen additions, including the new Storm Table and the new Advanced Export mode. This new Advanced Export mode allows exporting of over 160 key parameters in Text, CSV, or TSV formats, including options to individually specify each parameter's export sequence, data units (such as kts or m/s), data mode (such as AGL or MSL), decimal precision, and the ability to manually edit each column's header label. If you have made a RAOB 6.2 purchase, you are eligible to use the 6.3 Beta program now since you will be eligible for this free upgrade when RAOB 6.3 is released late next year. If you want to use the RAOB 6.3 Beta program now, or are not sure of your eligibility, just contact [wxx@raob.com](mailto:wxx@raob.com) and provide your RAOB serial number. Use the below link to view the growing list of RAOB 6.3 Beta enhancements... <http://www.raob.com/raob63beta.htm>
