RAOB 12% Sale. Celebrate the 2012 New Year with a 12% sale for the
first 12 days of 2012. Take 12% off any online order by entering
'RAOBsale12' in the order form's Voucher box.

For RAOB 6.2 users only. The latest version contains serial numbers
beginning with 6266, so if the first 4 digits of your RAOB serial
number are less, you should download the latest program update using
RAOB's Help menu (RAOB Program Updates) for the download link, or just
use this direct link: http://www.raob.com/filelinks/raob62update.htm
This update contains improvements to the Basic program and the
following optional modules: Analytic, Hodograph/Interactive, and
Special Data Decoders modules.

RAOB User Hint. You can press the keyboard's SpaceBar on any screen
for a short-cut display of pertinent data. This is especially helpful
when viewing the sounding & hodograph diagrams. Try it.

RAOB Customer Quote of the Month. 'I've never seen before any company
who offers such good service.'

RAOB 6.3 Beta program. Development of the RAOB 6.3 Beta program
continues. The new Advanced Export mode now permits exporting of over
200 key parameters in Text, CSV, or TSV formats, including options to
individually specify each parameter's export sequence, data units (such
as kts or m/s), data mode (such as AGL or MSL), decimal precision, and
the ability to manually edit each column's header label. If you have
made a RAOB 6.2 purchase, you are eligible to use the 6.3 Beta program
now since you will be eligible for this free upgrade when RAOB 6.3 is
released late next year. If you want to use the RAOB 6.3 Beta program
now, or are not sure of your eligibility, just contact wxx@raob.com and
provide your RAOB serial number. Use the below link to view the
growing list of RAOB 6.3 Beta enhancements...
