

RAOB Friends & Users:

June 2012

You have received this message because you are a RAOB owner or friend. If you received this message in error or no longer desire to receive these messages, just respond to this message by indicating REMOVE in the Subject or Body of this message.

For RAOB 6.2 users only. The latest version contains serial numbers beginning with 6274, so if the first 4 digits of your RAOB serial number are less, you should download the latest program update using RAOB's Help menu (RAOB Program Updates) for the download link, or just use this direct link: <http://www.raob.com/filelinks/raob62update.htm>
There were no program updates this month.

RAOB User Hint. When using a data file containing multiple soundings, you can easily and quickly loop or sequence the soundings using the Loop Controller as seen in the upper-left corner of this image ...
<http://raob.com/assets/images/RAOBWinterLg.jpg> You can automatically loop the sounding diagrams by using the movie (or double arrow << >>) buttons. There is an option to freeze diagram coordinates during the movie sequencing. You can access Loop options by either right-clicking on the Loop controller buttons, or by selecting the Options main menu, and then the Loop Options sub menu.

RAOB Customer Quote of the Month: 'We have been researching your software app for awhile now and find it to be the best out there.'

RAOB Customer Corner. This case study used RAOB to help analyze turbulence and icing conditions --

RAOB 6.3 Beta program. Development of the RAOB 6.3 Beta program continues. Most efforts are now focused on the new Custom View screen - the first of its kind display system --
<http://www.raob.com/customview.php> The Custom View display comes with every RAOB program configuration, and only depends on which optional program modules are available. If you have made a RAOB 6.2 purchase, you are eligible to use the 6.3 Beta program now since you will be eligible for this free upgrade when RAOB 6.3 is released later this year. If you want to use the RAOB 6.3 Beta program now, or are not sure of your eligibility, just contact wxx@raob.com and provide your RAOB serial number. Use this link to view the complete list of RAOB 6.3 Beta enhancements -- <http://www.raob.com/raob63beta.htm>

Important ... If you have program comments or questions, please send them using a separate message to wxx@raob.com
