

RAOB Friends & Users:

July 2012

You have received this message because you are a RAOB owner or friend. If you received this message in error or no longer desire to receive these messages, just respond to this message by indicating REMOVE in the Subject or Body of this message.

For RAOB 6.2 users only. The latest version contains serial numbers beginning with 6276, so if the first 4 digits of your RAOB serial number are less, you should download the latest program update using RAOB's Help menu (RAOB Program Updates) for the download link, or just use this direct link: <http://www.raob.com/filelinks/raob62update.htm> This update contains improvements to the Vertical Cross-Section's analyses of data void areas and includes improved Binary GRIB decoder handling of missing data elements.

RAOB User Hint. While viewing the SkewT or Emagram or Tephigram diagrams, just hold down the SHIFT key while moving the mouse over the diagram to show a constant display of the sounding's Pressure, Temperature, and AGL/MSL height values. Try it!

RAOB Customer Quote of the Month: One forum member responded to another's inquiry about the RAOB program with this reply ... 'This is the best! And the absolute only! Hands Down! Go for it!!!!'

RAOB Customer Corner. This customer used RAOB for its ability to process a variety of sounding data and its many options to customize both diagram displays and text listings:

RAOB 6.3 Beta program. Development of the RAOB 6.3 Beta program continues. Except for one more element, the 6.3 edition of the new Custom View screen is complete -- <http://www.raob.com/customview.php> On another front, work on a new Merge Module has begun with more to come next month. If you have made a RAOB 6.2 purchase, you are eligible to use the 6.3 Beta program now since you will be eligible for this free upgrade when RAOB 6.3 is released later this year. If you want to use the RAOB 6.3 Beta program now, or are not sure of your eligibility, just contact wxx@raob.com and provide your RAOB serial number. Use this link to view the complete list of RAOB 6.3 Beta enhancements -- <http://www.raob.com/raob63beta.htm>

Important ... If you have program comments or questions, please send them using a separate message to wxx@raob.com
