For RAOB 6.2 users only. The latest version contains serial numbers
beginning with 6276, so if the first 4 digits of your RAOB serial
number are less, you should download the latest program update using
RAOB's Help menu (RAOB Program Updates) for the download link, or just
use this direct link: http://www.raob.com/filelinks/raob62update.htm
There are no new updates this month.

RAOB User Hint. Did you know that you can paste sounding data directly
into RAOB's Edit box and then quickly plot a sounding? This is
assuming, of course, that RAOB has a decoder for the data format being
used – and we are just talking about text or ASCII encoded data – not
binary data. For quick access to RAOB's Edit box, just press F4.

RAOB Customer Quote of the Month. 'Great, Thanks again!' from a
customer preparing RAOB for a NASA support project.

RAOB Customer Corner. This customer used RAOB's CAPE and stability
analyses for the 'Mesoanalysis of Bow Echo Environments during BAMEX'.
