RAOB Friends & Users: December 2012

You have received this message because you are a RAOB owner or friend.
If you received this message in error or no longer desire to receive
these messages, just respond to this message by indicating REMOVE in
the Subject or Body of this message.

For RAOB 6.3 users only. The latest version contains serial numbers
beginning with 6351, so if the first 4 digits of your RAOB serial
number are less, you should download the latest program update using
RAOB's Help menu (RAOB Program Updates) for the download link, or just
use this direct link: http://www.raob.com/filelinks/raob63upgrade.htm
This update contains improvements to the Basic Sounding display, the
Special Data Decoders module, and other diagram displays.

RAOB User Hint. When accessing multi-sounding WMO coded files, you can
quickly find specific soundings by using the Filter option which can
filter by WMO Region or Block >

RAOB 6.4 Beta program. The RAOB 6.4 (Beta) program is now under
development. Several new features have already been added, but the
most significant additions are the 2 new decoders for the Mitsubishi
and RemTech wind profilers. If you have made a RAOB 6.3 purchase, you
are eligible to use the 6.4 Beta program now since you will be eligible
for this free upgrade when RAOB 6.4 is released later next year. If
you want to use the RAOB 6.4 Beta program now, or are not sure of your
eligibility, just contact wxx@raob.com and provide your RAOB serial
number. Use this link to view the complete list of RAOB 6.4 Beta
enhancements -- http://www.raob.com/raob64beta.htm

_____
Important … If you have program comments or questions, please send them
using a separate message to wxx@raob.com
