RAOB Friends & Users: August 2015

You have received this message because you are a RAOB owner or friend. If
you received this message in error or no longer desire to receive these
messages, just respond to this message by indicating REMOVE in the Subject or
Body of this message.

There are no changes or updates to the current RAOB 6.5 program, but you can
always obtain the latest updates by using the Help Menu's 'Update' option.

RAOB Module Sale. Use this link for the Advanced Export Modules' 25% off
sale during 2-11 August … http://www.raob.com/sales/sale_201508.pdf

RAOB User Hint: When in doubt about anything RAOB, just right-click your
mouse on the object of interest for information or configuration options.

RAOB Customer Corner. Not only does RAOB excel in Hazards-related analytical
capabilities as seen here >
http://www.srh.noaa.gov/images/maf/fire/hirise.pdf , but the new Beta program
now offers corresponding graphical displays > http://raob.com/hazards.php

RAOB Customer Quote of the Month from Great Britain: 'Nice job. This is
definitely the most versatile sounding viewer I have found.'

RAOB 6.6 Beta program. The RAOB 6.6 Beta program now contains the new ECMWF
decoder for Pressure Level 'Winds' data. The Beta also introduces the new
Advanced Soundingram module > http://raob.com/mod_advsound.php If you have
made a RAOB 6.5 purchase, you are eligible to use the v6.6 Beta program now
since you will be eligible for this free upgrade when RAOB 6.6 is released
later this year. If you want to use the RAOB 6.6 Beta program now, or are
not sure of your eligibility, just contact wxx@raob.com and provide your RAOB
serial number. Use this link to view the complete list of RAOB Beta
enhancements > http://www.raob.com/raob66beta.htm

_____
Important … If you have program comments or questions, please send them using
a separate message to wxx@raob.com
