

RAOB Friends & Users:

April 2017

You have received this message because you are a RAOB owner or friend. If you received this message in error or no longer desire to receive these messages, just respond to this message by indicating REMOVE in the Subject or Body of this message. All other communications must be sent to [wxx@raob.com](mailto:wxx@raob.com)

For RAOB 6.7 users only. The latest version contains serial numbers beginning with 6755, so if the first 4 digits of your RAOB serial number are less, you should download the latest program update using RAOB's Help menu (RAOB Program Updates) for the download link, or just use this direct link: <http://raob.com/filelinks/raob67upgrade.htm>

RAOB Customer Quote of the Month, from a long-time user, 'I'd like to thank you for your high-quality software.'

RAOB User Hint. RAOB's Severe Weather Table is the most comprehensive sounding analytical tool available to measure severe weather potential. Plus, all parameters have user-configurable threshold options allowing tailored thresholds for any worldwide location > [http://raob.com/opt\\_severe.php](http://raob.com/opt_severe.php)

RAOB 6.8 Beta program. RAOB's Severe Weather Table now has 2 additional storm-relative Helicity layer predictors, providing a total of 51 user-configurable, severe weather potential indicators. If you have made a RAOB 6.7 purchase, you are eligible to use the 6.8 Beta program now since you will be eligible for this free upgrade when RAOB 6.8 is released later this year. If you want to use the RAOB 6.8 Beta program now, or are not sure of your eligibility, just contact [wxx@raob.com](mailto:wxx@raob.com) and provide your RAOB serial number. Use this link to view the complete list of RAOB Beta enhancements > <http://raob.com/raob68beta.htm>
