RAOB Friends & Users: August 2017

For RAOB 6.7 users only. The latest version contains serial numbers
beginning with 6764, so if the first 4 digits of your RAOB serial number
are less, you should download the latest program update using RAOB's Help
menu (RAOB Program Updates) for the download link, or just use this direct
link: http://raob.com/filelinks/raob67upgrade.htm

RAOB User Hint. Just by hitting the SpaceBar, RAOB's Listings menus allow a
huge variety of text output data. In particular, the 'Severe Weather' Tab
provides a tabulated display of weighted severe weather parameters with
respect to storm categories. See this short YouTube video >
https://www.youtube.com/watch?v=qkxHtgt0pFA&t=11s

RAOB Customer Quote of the Month – from Australia: 'Thank you for the great
program – spent many hours using it last night.'

RAOB Customer Corner. See how the Radiometrics Corporation uses RAOB to
display their radiometer data on SkewT diagrams and Time-Height diagrams >

290814.pdf

RAOB 6.8 Beta program. The RAOB Factory has been working overtime to
accommodate customer requests. Here are two new Beta program functions:

#1 – The new Special Data Decoders module's Meteociel Decoder for European
data. See short video > https://www.youtube.com/watch?v=kGhr6F-xa1M

#2 – The new Advanced Cross-Section module's Split-Screen capability >

If you have made a RAOB 6.7 purchase, you are eligible to use the 6.8 Beta
program now since you will be eligible for this free upgrade when RAOB 6.8 is
released later this year. If you want to use the RAOB 6.8 Beta program now,
or are not sure of your eligibility, just contact wxx@raob.com and provide
your RAOB serial number. Use this link to view the complete list of RAOB
Beta enhancements >
